## *NEED YOU TO KNOW*

*Tried to be as clear as mud  
When I pass on this fetid love  
I'm happy locked in a fridge  
Way out back where the road doesn't go  
Keep my mind cold*

*Mark it on your calendar  
That I'll be gone  
From this day on  
And while I'm sitting right here  
● Might be off on inner-walkabout  
Keep my mind cold*

*I need you to know  
I need you to know  
I need you to know  
to know  
to know*

*My wrist on fire  
My wrist on fire*

*You say it's fine  
I'll tell you why that don't sound right  
Here's your invite  
To a big black time  
What you say next will hold  
Until we say goodbye*

*I need you to know  
I need you to know  
I need you to know  
to know  
to know*

## ENGLISH WAS MY NAME

I told truth then  
I couldn't lie  
When English was my name  
I held the spotlight  
I got the plot right  
When English was my name  
I came down  
I came down  
When English was my name  
I set forth  
I set forth

It took a long while  
Pushing through turnstyles  
English was my name  
I took a stab then  
I understood when  
English was my name  
It stayed down  
It stayed down  
I set forth  
I set forth

Oh no  
I never thought it was a sign  
Oh no  
I never knew it was a way to go  
My heart hangs open

I told then truth then  
I couldn't lie when  
English was my name  
I set forth  
I set forth

English was  
English was  
English was my name

## READY TO FALL

Showed up from nowhere looking thin  
Don't think you had a plan  
Came up with ways to make you wonder  
Sort out a place to land

Whenever you take a mirror's poll  
We're there in the shadow's house  
Whenever you open or you close  
We're there to sign you out

Gave you the time to map your raid with  
Saved you a spot on the hill  
And while I'm not sure just what your name is  
Got it at the top of the bill

Whenever you take a mirror's poll  
We're in the shadow's house  
Whenever you open or you close  
We're there to sign you out

Let's teach you to sting  
Let's teach you to know  
We taught you to breathe  
Now fill those lungs  
Let's turn you to dust  
Let's turn you to stone  
Let's turn you away from all alone  
We'll teach you to fall  
Pick your wings  
Wave your hand and go

Let's get you ready to fall  
I think you're ready to fall  
We'll get you ready to fall  
I think you're ready to fall  
And the sun gets small  
While the ground gets big  
And the Hitchcock spiral  
Makes you sick  
And we pack your chute  
with a heavy weight  
And now step out to the sky  
Alone

Let's teach you to sting  
Let's teach you to know  
We taught you to breathe  
to fill those lungs

Let's turn you to stone  
Let's turn you away from all alone  
Wave your hand  
Wave your hand  
Wave your hand and go

## STAY DOWN

Took a seat on the bench  
Held a spoon in my hand  
Count the holes in the belt  
Disappear when I can  
And I walked to the front  
Held the bowl up alone  
Didn't really hear the words but  
I can tell by your tone  
Stay down

On the side of the bridge  
There was rust on the rail  
I don't know why I came  
I don't know why I was there  
But the dogs didn't bark  
And the feeling wasn't fear  
I could read it on your lips  
Never needed to hear  
Stay down

It's a shame  
We all look for annihilation

Stay down

## TOO BAD

Lost  
I can't be sad about it  
Until I start to think  
But why be bothered now  
We align our dreams  
To what won't slow us down  
And a third of life got wasted  
Why be mad?  
That's not too bad.

Found  
But then forgot about it  
Put the car in the creek  
Passed the halothane around  
And I always end a story with a lie  
And we always underrated what we had  
Was not too bad

Congratulations on the time  
It took to finish nothing  
Entertained for all my life  
To try to try each morning  
How right  
Did we need it  
How right  
To waste it all

We align our dreams  
To what won't slow us down  
And a third of life got wasted  
Why be mad?  
That's not too bad.

## DID DIDN'T WILL WON'T

I read ahead  
a crazy story line  
I'll get behind it if I can  
The snow up there will probably never thaw  
All that's buried's safe for now

Didn't anybody see the storm?  
Doesn't anybody try to pry the planks from the floor?  
If it matters anymore

Covered the sky  
Like a lamp with a thin red scarf  
The devil left a note taped on the car  
Sit back down  
Let's swing just a little bit more  
The porch light's broke for good  
And we'll be fine

Didn't anybody see the storm?  
Doesn't anybody try to pry the planks from the floor?  
If it matters anymore

I did, I don't  
I will, I won't  
The lists just drag me down  
I can, I can't  
Appreciate the chance  
Let's leave one stone

Put the gun against the monologue  
Force it round to match the way  
I always told it

Didn't anybody see the storm?  
Doesn't anybody try to pull the planks from the floor?  
If it matters anymore

I did, I don't  
I will, I won't  
The lists just drag me down  
I can, I can't  
Appreciate the chance  
Let's leave one stone  
I knew, I know  
Hold on let's get it past go  
Don't wait to throw the lines  
I lost I found  
Presumed to make a sound  
Let's quiet down
