

BROOD IX

Hits you right here
As you're outbound
And the feeling called my name
And I told you
That I'd tell you
I'll explain just what it means
In Seventeen

Wasting hours
That I'd banked for
Using when the time was right
It was always wrong
And the breaks too long
Let's play it all back scene by scene
In Seventeen

Put down the clock
Let's lock it in amber
And wait out the sky
Trade blood and promise
To never perform
To never regret
What we left on the side
See you in seventeen
Seventeen

Feeling your pride aren't you?
Waiting to ride out
A sad sullen life
Waiting to throw a frown through the floor
Waiting for my mislead
In Seventeen

You know about limits
You knew that this road only went so far
And while I am buried I am your home
Sometimes the love is unseen

Highlight the main scars
With wrapping and bows
And under the tree
We'll shake them like children
And break what's inside
Then leave them alone
Leave them till we are clean
In seventeen
Seventeen
Seventeen

THE SOONER

Back from walking off
The stinger left in my side
Remote-controlled me home
And you remembered
The sting was well deserved
The arguments absurd

The sooner we get through it
The sooner we're out the other side
The sooner we get through it
The sooner we're back to centerline

The treaty's on the floor
Ink won't ever dry
Still, bishop rushes queen
You stopped protecting
You're always so damn restless
To use up all the time

The sooner we get through it
The sooner we're out the other side
The sooner we get through it
The sooner we're back to centerline

Hey sit down unfold your arms without
A clue what this was all about
Skip to our usual return

DON'T SET YOUR STORY

Burst in like a fainting believer
I almost like your confidence and poise
You brought up some water from the river
You try to be heard above the noise

Don't set your story down here
Don't set your story here
Don't set your story down here
Don't set your story here

You offered me a whiskey for a promise
I'll hold on to my dignity for sure
Your teeth are causing weakening defenses
I'll take another look at the brochure

Don't set your story down here
Don't set your story here
Don't set your story down here
Don't set your story here

I saw your ad on the old barn
out off the highway's looking bad

A bit of petrol and a lighter
we can have ourselves a laugh
I always liked a little static

Don't set your story down here
Don't set your story here
Don't set your story down here
Don't set your story here

FEELS LIKE

Can't remember the band
Stamp is smeared on her hand
A napkin and number for a fan
Blots lips with a towel that the
Drummer threw down
It stares at her empty, seems to frown

The weirdness got old for you
So long ago
You're favorite answer "I don't know"

And it feels like nothing is together
Feels like I'm scared out of my mind
Feels like I did it wrong again this time

And now there are letters
And prices to pay
They won't take what I have
I'm afraid

And was your intention
To never intend
Just follow this frayed thread to the end

And it feels like nothing is together
Feels like I'm scared out of my mind
Feels like I did it wrong again this time

Oh by the way
I've already gone
I'm not sitting right here with you
Don't you know
That the radius covers my fall
And it's past time to go

And it feels like nothing is together
Feels like I'm scared out of my mind
Feels like I did it wrong again this time
And it feels like nothing is together
Feels like I'm scared out of my mind
Can't wait to do it wrong again this time

THE ANIMALS LINE UP

We weren't first but now we're here
Give you a choice to either run or kneel
Violence first then fire and wheel
Add them to the list of great ideas

The Animals
Line up for cyanide

Saw them gather in the field
Right out in the open, a meeting about their fear
The river where we drain the blood
I see all the footsteps circle in the mud

The Animals
Line up for cyanide

We weren't poor 'til we came up with money.
Volcano full of that human honey
Leave it all for aliens to study
Cue the clouds It's gotten too damn sunny

The Animals
The Animals
The Animals
Line up for cyanide
